About

Human-centred designer and front-end developer based in Vancouver, British Columbia. Passionate about inclusive design and the intersection of aesthetics and usability.

With a background in Psychology and Computing Science, I use behavioural research and systems thinking to craft intuitive, accessible digital experiences — from early-stage research and wireframes to high-fidelity prototypes and coded interfaces.

Experience

Cactus Club Cafe | Team Lead/Server

Jun 2021 – Present

Led cross-functional teams in fast-paced environments, developing strong communication and organizational skills while supporting daily operations, resolving issues in real time, and ensuring a consistent, high-quality guest experience.

Simon Fraser University | Research Assistant

Oct 2020 – May 2021

Supported mixed-methods behavioural research including study design, participant recruitment, data collection, and qualitative analysis for the Intergroup Relations & Social Justice Lab and the Autism and Developmental Disorders Lab.

Education

British Columbia Institute Of Technology

Jan 2025 | New Media Design & Web Development

Developing expertise in UI/UX design, front-end development, and interactive media — with a focus on responsive design, design systems, and user-centred product thinking.

Simon Fraser University

Sep 2019 – Jun 2022 | BA Psychology

Studied human behaviour, cognition, and research methodology across two labs — building the analytical foundation that drives my approach to user research, empathy mapping, and evidence-based design decisions.

Simon Fraser University

Sep 2017 – Sep 2019 | Computing Science Student

Developed basic foundations in programming logic, problem-solving, and computational thinking.

Skills

UX Practice

- Wireframing
- Prototyping
- User Flows
- Sitemaps
- User Research
- Usability Testing
- Accessibility

Design

- Figma
- Adobe Illustrator
- Adobe Photoshop
- Adobe InDesign
- Adobe Dimension
- Adobe After Effects
- Brand Identity

Development

- React.js
- React Native
- Node.js
- HTML
- CSS
- Javascript
- GSAP
- jQuery

Interdisciplinary

- Human Behaviour
- User Empathy
- Data Analysis
- Problem-Solving
- Logical Thinking
- Programming
- Leadership
- Team Coordination
